

A photograph of a modern, minimalist building facade. The central feature is a large, white, horizontally-slatted garage door. The door is set into a wall made of large, light-grey concrete panels. Above the door, a thin horizontal light strip is visible. To the left of the door, there is a large, dark-framed window reflecting the sky and trees. Two small, square, black wall sconces are mounted on the concrete wall, one on each side of the door. The foreground is a light-colored concrete driveway. The sky is a clear, pale blue. The overall aesthetic is clean and contemporary.

DOOR LEAVES

PRODUCT RANGE

repanels

Every great door starts with a solid foundation. That's where we come in.

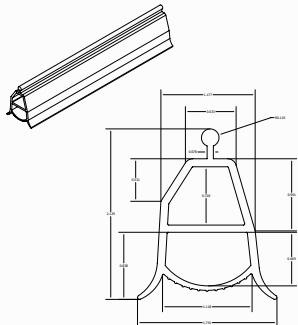

At Repanels Inc., we produce high-quality door leaves – the perfect starting point for installers to finish, customize, and turn into doors that fit every project. We deliver the base. You create the door.

Key Features

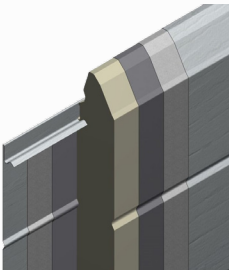

Modern design

Sleek, smooth, and flush door leaves that elevate curb appeal.

Quick Seal Technology

Featuring Elton's quick seal for efficient installation and reliable performance.

Monoshell Panel Construction

Ensuring long-term stability and durability, today and for years to come.

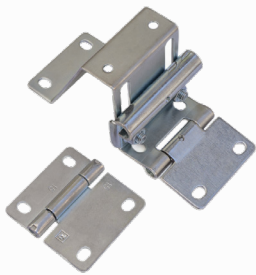

European Expertise, Local Production

Backed by decades of European know-how in smooth panels, now crafted for the North American market.

European Craftsmanship. American Made.

Hardware partnership

All necessary hardware for optimal panel performance is easily obtainable in North America, facilitating seamless integration and ensuring efficient operation.

Integrated reinforcement strips

Through a complex profile, the reinforcement strip is built in and part of the monoshell design and therefore always in the correct place. This allows the screw to go through 3 layers of steel to fix the hinges.

Possible panel designs

RF

Available in: 21"and 24"

RL

Available in: 21"and 24"

RVV

Available in: 24"

Personalizing options

Color and finishing

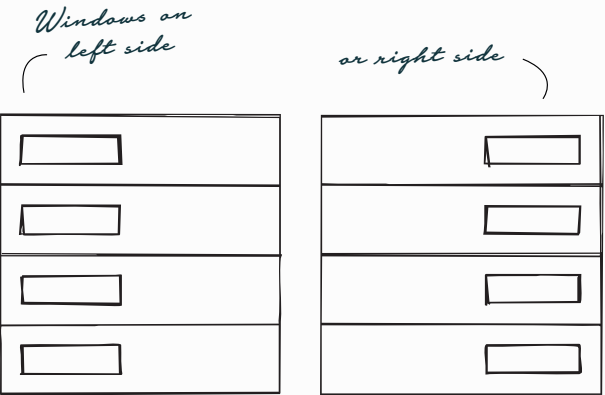

Model	Embossing	Coating	Colors		
RF	Smooth	Polygrain	RAL 7016	RAL 9016	RAL 9005
RL	Smooth	Polygrain	RAL 9016		
RVV	Smooth	Polygrain	RAL 9016		

Available dimensions

Door Width						Door Height
8'	9'	10'	12'	16'	18'	
RF - RL	RF - RL	RF - RL	RF - RL	RF - RL	RF - RL	
RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	
RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	RF - RL - RVV	7'
						8'
						8' HL

Window configurations

Standard	vertical alignment of windows only.
Position	Left or right side (as viewed from inside)
Quantity	1 window per panel <i>Option: Full glazed (1 window per panel) or plain door.</i>
Window available	Slimline window

Repanels Inc.

As part of the Repanels Group, Repanels Inc. extends our European expertise in door panel engineering to **smooth door leaves** for residential applications.

Our products are designed with the same DNA that made Repanels the European market leader in sectional door panels: **quality, consistency, and reliability.**

From design to production and finishing, we ensure every door leaf meets the highest standards of strength, thermal performance, and visual appeal.

More than a manufacturer, we're a long-term partner, helping door professionals across North America deliver better, safer, and more efficient doors. Built by **dedicated door people**, for **door professionals** who expect more.
